

QUALITY POLICY

Ansaldo Energia Group is fully dedicated to continuously improve and innovate its processes to increase customer satisfaction and competitiveness on the market by:

- Ensuring the full flexibility and proactivity to respond to the customer needs to be satisfied by its product and service offer portfolio.
- Involving all Group personnel and its stakeholders to achieve and maintain a high level of quality and innovation of its products and services.
- Sustaining continuous improvement in the effectiveness of Ansaldo Energia Group's Quality Management System.
- Ensuring a strict compliance with laws and regulations in every country where Ansaldo Energia Group's products and services are offered.

Such commitment will be addressed guaranteeing the highest integrity level, clearly documented quality objectives and routine management reviews.
